

# J-TUBES

*Curved tubes with bellmouth to support and protect the turbine power cables*

Kersten has a strong track record in the supply of J-tubes. We have successfully supplied J-tubes for various offshore wind projects in the North Sea, Baltic Sea, Irish Sea, Atlantic Ocean.

## S TO XXL BENDING TECHNOLOGY

Kersten offers a large range of bending capacities for bending small to very large tubes. If the requirements exceed the cold bending possibilities we can switch to hot bending.

- Cold bending of tubes up to **Ø610mm**
- Hot bending of tubes up to **Ø1.016mm**
- Radius from 2.5xD to ∞xD (no radius limit)

## IN HOUSE SERVICES

- 3D cutting
- Making end cones and assembly
- Welding acc. to the latest offshore standards
- Quality, flexibility and precision
